

Advisory Strategy Cover Letter

436 Langworth Grove Davinaton, WV 00463-5272

Dear River Raynor,

Please consider me for the advisory strategy opportunity. I am including my resume that lists my qualifications and experience.

In the previous role, I was responsible for data-based analysis and insights to support and drive the growth strategy in new and existing market areas.

My experience is an excellent fit for the list of requirements in this job:

- Driving the ECRS's thought leadership on regulatory initiatives in capital markets, by identifying relevant topics as the regulatory landscape develops, and drafting cogent analyses of the opportunities and challenges these present
- Playing a full part in the ECRS senior management team, and the day-to-day running of the team
- Relevant and commensurate experience working within the capital markets sector (directly, or in a regulatory or advisory role)
- Deep knowledge of the latest regulatory developments and current issues facing regulated firms in the UK and EU
- Proven track record in understanding and interpreting regulation within the capital markets industry, assessing its financial, strategic and operational impact on firms
- Working closely with the ECRS senior management team and stakeholders throughout the European network and beyond
- Tracking and quickly and efficiently reviewing a large volume of information in order to identify and disseminate the key points in a clear and concise manner
- Assessment of the financial and operational impact of regulatory developments on clients

Thank you in advance for taking the time to read my cover letter and to review my resume.
