

Advisory Strategy Cover Letter

53142 Jed AlleyYundttown, GA 82582

Dear Drew Nader,

In response to your job posting for advisory strategy, I am including this letter and my resume for your review.

In the previous role, I was responsible for performance reporting to Accelerator team to help identify problems areas and areas of opportunity for future growth.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Strong written and verbal communication skills, and comfortable presenting to senior executives
- An analytical mindset, with a highly process and detail-orientated approach
- Demonstrate strong top-down analytical, problem-solving skills result-oriented attitude
- Strong experience working with business critical tools to analyze and interpret data
- Excellent attention to detail and quality of work product
- Technical or specialist experience, likely to include some experience working with/on of security technology deployment or operation, operating system build/support/configuration, networking, software or web development, coding, system or solution architecture initiatives, cloud initiatives, incident response/management, and technical risk assessments
- Up-to-date knowledge of the latest cyber-attack techniques and threats
- Knowledge of the Wealth Business and products, Financial Advisor segments

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

River Watsica
