

# Aerodynamics Engineer Cover Letter

497 Jerde RoadsDonaldport, CA 51724-8839

**Dear Lennox Vandervort,**

In response to your job posting for aerodynamics engineer, I am including this letter and my resume for your review.

In the previous role, I was responsible for either showing of compliance or finding of compliance roles in accordance with FAA regulations associated with AEH development.

My experience is an excellent fit for the list of requirements in this job:

- Develop new testing tools to evaluate golf ball fluid dynamic performance
- Maintain and expand current testing tools to evaluate golf ball fluid dynamic performance
- Communicate status and technical summaries to golf ball R&D team
- Communicate with non-R&D teams within the company to ensure product meets the design intent
- Research and stay abreast of new technologies and developments pertaining to fluid dynamics, simulation software, both within and outside the golf industry
- Direct experience conducting experiments and analyzing results in order to draw conclusions
- High-energy, self-motivated technical leader with a passion for engineering and a drive for continuous improvement
- Expert knowledge of Matlab and MS Office Software (Excel, Word, PowerPoint)

**Thank you for your time and consideration.**

Sincerely,

Cameron Stokes
