Dear Dallas Bednar,

Please consider me for the agile developer opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for design, development and testing estimations based on requirements and research into data that is currently sourced.

Please consider my experience and qualifications for this position:

- Proficiency in Java or similar languages
- Experience with Extreme Programming (XP) practices
- Extensive knowledge and experience in Microsoft Excel, Access, VBA and SQL
- Proficiency with JCL and SQL
- Providing estimates for requirements
- Work experience with Agile Scrum model
- Knowledge and experience of C# .Net , SQL Server, Angular.js, ASP MVC, Test Driven Development and DevOps best practice
- Advanced understanding and experience of service oriented architecture, the benefits of microservices

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Drew Bernhard
