Agile Developer Cover Letter

62753 Bong PlainEast Dewittchester, GA 15436

Dear Casey Ziemann,

I am excited to be applying for the position of agile developer. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for coaching to scrum team where needed to ensure agile testing principles are applied.

Please consider my qualifications and experience:

- Enrolled in a college or university in Computer Science, Engineering, Mathematics, Software Systems, or related field of study
- Willingness to learn and work with testing automation tools (such as UFT, eCATT, START, Selenium), continuous integration tools (such as Jenkins) and SAP applications (such as Web dynpro)
- Willingness to develop using ABAP, Java, JavaSript, Visual Basic for Applications, and SQLScript
- Willingness to take initiative to solve problems and provide regular updates on status
- Communicate clearly and concisely with regards to problem resolution, status updates, mitigation plans and successes on a regular basis
- In-depth experience on the primary skill set (.Net/SQL Server) as part of a development role
- Working knowledge of AngularJs, WebAPI, MVC, WPF, WCF, Windows Services and Threading
- Knowledge of Frameworks like Prism and Design Patterns like MVVM

Thank you for your time and consideration.

Sincerely,

Rowan Reinger
