

Aircraft Electrician Cover Letter

6298 Linette PortsSouth Pricilla, AR 45165-4347

Dear Armani Crona,

In response to your job posting for aircraft electrician, I am including this letter and my resume for your review.

In my previous role, I was responsible for operation support of the USAF Maintenance Information System including Core Automated Maintenance System (CAMS), Centralized Engine Management System (CEMS) and other maintenance management database library programs.

Please consider my experience and qualifications for this position:

- Enrollment in an A&P, AFAB or equivalent program
- Minimum of 9 months of electrical experience in an aerospace, automotive, military, manufacturing, and/or maintenance environment, or enrollment in an A&P certificate program
- Some structure experience is preferred to preform task such as LRU tray, ground strap installations, with minor bracket hardware and bond installations
- H-60, H-47 experience is preferred or civilian equivalent
- Electrical, environmental systems and/or avionics experience on the B-2
- Current or previous B-2 program clearance
- Minimum of 9 months electrical experience in an aerospace, automotive, military, manufacturing and/or maintenance environment OR enrollment in an A&P certificate program or equivalent program
- Completed an 'indentured' engineering apprenticeship or equivalent relevant, recent experience

Thank you for considering me to become a member of your team.

Sincerely,

Lennon Lakin
