# Analyst, Application Cover Letter

436 Block PlainsNew Agatha, NC 98424

**Dear Ari Robel,**

I am excited to be applying for the position of analyst, application. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for system analysis and third party programming resource management support in integration of new products and migrating of existing products.

Please consider my experience and qualifications for this position:

- Previous IT development experience, preferably in the banking related sector (Acquiring, POS terminals, core banking host systems )
- Expert in Microsoft Internet Information Services (IIS) administration and configuration
- Proficient in Active Directory/LDAP user and group administation
- Working knowledge of Microsoft PowerShell, VBScript, and .NET frameworks
- Experience in healthcare, business, technology, or related field
- Awareness of different technical domains (Python, R, Spark, classification, regression, optimization, statistics )
- Experience building and/or supporting machine learning or decision systems
- Research experience in a quantitative and/or analytical field

**Thank you for considering me to become a member of your team.**

Sincerely,

Royal Nader
