

# Analyst Information Cover Letter

4278 Williamson MissionAllanbury, WY 35839-8622

**Dear Rory Marks,**

I would like to submit my application for the analyst information opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for consultancy to projects and services on mitigation of risks and control implementation leading to effective risk management.

Please consider my experience and qualifications for this position:

- Passion for customer service, problem solving, investigation, and information security
- Strong analytical abilities and investigation skills
- Technical knowledge in security engineering, secure application development lifecycle processes, authentication and security protocols, and cryptography
- Strong understanding of IP addressing, TCP/IP ports and services, UDP, different levels of the OSI model, and exposure to common server operating systems
- Expert in Microsoft Business Intelligence Suite (SQL Server, SQL Integration, SQL Reporting, and SQL Analysis Services)
- Background in information security, and/or Identity and Access Management
- Background in the banking business or having worked with a business unit will be an advantage
- Experience in Information Security or IT Compliance in a Microsoft Windows environment

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Riley Robel
