

Analyst Information Cover Letter

88431 Brett MewsWest Mickey, NY 60478

Dear Jordan Kreiger,

In response to your job posting for analyst information, I am including this letter and my resume for your review.

In my previous role, I was responsible for consultancy on project and services to support mitigation of risk and control implementation leading to effective risk management.

Please consider my qualifications and experience:

- Knowledge of SIEM (ArcSight preferred), packet capture solutions, intrusion detection systems
- Attacker methodology and penetration testing
- Familiarity with network protocols (DNS, DHCP, SMTP, HTTP)
- Experience with analyzing malware and extracting indicators/call outs
- Experience using a scripting language to solve Cyber Security challenges
- Knowledge of cloud technologies desirable
- Can communicate an understanding of what Cloud Computing is
- Can communicate an understanding of what the Cloud Security Alliance does and what the Consensus Assents Initiative Questionnaire is

I really appreciate you taking the time to review my application for the position of analyst information.

Sincerely,

Charlie Corkery
