Dear Azariah Fadel,

I submit this application to express my sincere interest in the analyst, materials position.

In my previous role, I was responsible for support for system and data access controls including Identity and Access Management, Role Based Access Control, and Security Administration.

My experience is an excellent fit for the list of requirements in this job:

- Experience in Operations, Demand Planning, Supply Planning, Forecasting, Inventory Optimizations
- Proficient in Microsoft Office (Word, PowerPoint, Excel,) - Willing to work in a fast-paced, multi-faceted environment
- Preferred prior exposure into manufacturing plant (Direct production, inventory management and material planning/scheduling experience)
- Experience in materials planning & inventory management will be added advantage
- Certifications, licenses, etc
- Can lead conversations with partners in a proactive, productive manner
- BS/BA in business, engineering or operations management
- Self-Motivator who can drive for resolution of problems

I really appreciate you taking the time to review my application for the position of analyst, materials.

Sincerely,

Casey Dooley
