**Dear Bellamy Davis,**

Please consider me for the analyst opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for white glove support as needed to executive leadership on any of the Microsoft 0365 tools.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Able to understand and communicate big picture rather than narrowly focused on assigned responsibilities
- Detail-oriented, particularly to get information and record it in a way that others can access and understand
- Broad finance background, not necessarily from risk
- Comfort with technology – proof of learning and ownership
- Obviously, direct experience with market risk measures (VaR, Stressed VaR), Basel 2.5 market risk capital charges (IRC, CRM, Correlation surcharges, ), CCAR tests, FRTB, , welcomed, but not necessary
- Work independently without assigned tasks and across multiple tasks
- High level of competence with MS Office, Excel and Access
- Experience dealing with Market Data desirable

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Finley Schowalter
