

Android Developer Cover Letter

3119 Jan Circle West Andrew, AK 41691-1383

Dear Rory Ortiz,

In response to your job posting for android developer, I am including this letter and my resume for your review.

In the previous role, I was responsible for technical leadership to a young, fast-paced, and dynamic Android development team.

Please consider my qualifications and experience:

- Acted as a key contributor to at least two publically released native Android applications
- Strong native Android development experience with strong knowledge of the Android SDK, Android Studio, and solid Java development skills
- Deep familiarity with Android Material Design guidelines
- Collaborated closely with product managers, user interface designers, platform engineers, and multiple groups to define and implement product features
- To completion apps in the Android Marketplace
- Experience with distributing an application for internal testing submitting an application to the Google Play Store for public distribution
- Experience with developing mobile applications using modern tools and approaches such as unit testing, GIT for source code control, and JIRA for task assignment and defect tracking
- Experiencing developing applications in a team environment leveraging the Agile methodology specifically Scrum

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Jordan McClure
