

Application Consultant Cover Letter

43052 Runolfsdottir Lodge Soraya port, AK 23057-3884

Dear Haven Wyman,

I am excited to be applying for the position of application consultant. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for all AS400 production control services, including, ongoing maintenance of Software source code library.

My experience is an excellent fit for the list of requirements in this job:

- Experience in setting up CI/CD pipeline from scratch using Jenkins or Bamboo
- Experience working with large scale implementations of Docker containers and Micro-services architecture
- Expert level knowledge of containerizing applications and middleware using Docker
- Experience configuring and managing DevOps tools (open-source) such as Docker, Git/Stash, Jenkins, Ansible, Puppet, Chef, ELK, Artifactory, Nexus, New Relic, Atlassian suite of products
- Working knowledge of Automated Testing methodologies and tools such as Selenium, Cucumber, TestNG
- In-depth knowledge of Linux OS, virtualization, cloud on-demand computing, and a wide variety of open source tools and application stacks that need to be automated (Tomcat, Maven, Ant, IIS, Nginx, Apache)
- Experience in software development and knowledge of programming languages – JAVA, .Net
- Familiarity with Software development methodology and processes

Thank you for taking your time to review my application.

Sincerely,

Haven Bruen
