

Application Consultant Cover Letter

95032 Jeanetta LakeOtisview, AK 58011-2467

Dear Baylor Wilderman,

I submit this application to express my sincere interest in the application consultant position.

In my previous role, I was responsible for support for application issues raised that need to be debugged at a code level.

Please consider my experience and qualifications for this position:

- Unix environment using Weblogic or Websphere application servers
- VB.Net, ASP.Net, C#.Net, Crystal Reports, MS SQL
- Production Support on Issues/Queries raised by external or internal clients
- Charles River Usage/Support Experience
- Familiar with SQL, FIX and Crystal Reports
- Having Investment or Portfolio Management / Trading / Compliance / Finance related domain knowledge would be beneficial
- Excellent knowledge of ETL tools
- Knowledge of Microsoft Business Intelligence stack

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Avery Schulist
