

Application Consultant Cover Letter

49882 Tania PlainGrantmouth, NC 57024

Dear Robin Spencer,

In response to your job posting for application consultant, I am including this letter and my resume for your review.

In my previous role, I was responsible for consultation in eliminating of weaknesses identified in accordance with current IT Standards by proposing changes from source code to software architecture.

Please consider my qualifications and experience:

- Experience and knowledge of engineering & design, engineering practices and deliverables within the Process Industries Able to develop trust and respect with technical specialists both within AVEVA and among the AVEVA user community
- Have experience with user support and/or application development
- Have strong IT skills (AVS, JVS, Open Components, API's, Java, PL/SQL,) and are familiar with programming languages such as VBA or .Net
- Should have working experience with any IAAS(Infrastructure as a Service), SAAS(Software as a Service) & PAAS(Platform as a Service)solutions and migrating workloads from one cloud provider to another
- Knowledge on code build methodologies and tools such as Maven, Ant, Graddle
- Should have knowledge of setting up source Code Management processes – Code Promotion, Branching Strategies, & Code Merges
- Knowledge of clinical workflow within the domain of critical care or anesthesia / operating room
- In depth knowledge of the architecture of the application

I really appreciate you taking the time to review my application for the position of application consultant.

Sincerely,
