

Application Senior Developer Cover Letter

34859 Dalila ClubLabadieborough, RI 05707

Dear Oakley Kessler,

I am excited to be applying for the position of application senior developer. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for technical direction in the analysis, design, development, testing, deployment, maintenance for bug fixes and enhancements related to the PM/CS suite of applications and its interfaces.

Please consider my qualifications and experience:

- Strong Object Oriented development experience (Microsoft .Net preferred)
Strong SQL Server and T-SQL development experience (creating and maintaining relational databases, stored procedures, views, functions)
- Familiarity with test driven development (MS-Test)
- Familiarity with formal change control and support processes (JIRA, Scrum)
- Committed to enforcing Process & Procedures Standards within Development
- Experience in technical analysis and documentation of new requirements
- Strong aptitude to learn about new technologies and how they apply to OCC's Business and Architecture Frameworks
- Self-driven, willing to take initiative when an opportunity presents itself
- Contributes 'Out of the Box' thinking through Business Analysis and IT Solutions

Thank you for taking your time to review my application.

Sincerely,

Onyx Dach
