- Advanced familiarity with archeological materials and sections relating to applicable cultural resources
- Working knowledge of archeological principles and methodologies
- Demonstrated knowledge of federal historic preservation legislation
- Demonstrated knowledge of archaeological field and laboratory methodologies and analytical techniques is beneficial
- While not mandatory, New Mexico experience and past New Mexico BLM district permits, and/or Texas Antiquities permit completion is preferred
- Artifact analysis and technical writing experience will be strongly considered
- Preference will be given to a North American specialist
- Preference will be given to a precontact specialist with North American geographic expertise

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,
