Architect Manager Cover Letter

48371 Lucienne ThroughwayCarolefort, KY 00015-9472

Dear Emerson Haley,

I submit this application to express my sincere interest in the architect manager position.

In my previous role, I was responsible for technology leadership across a wide range of areas including methodologies (TOGAF), Infrastructure (Mainframe, Distributed), Technologies (J2EE, .Net, Web Services, Oracle, SQL, WebCenter, JBOSS, BI, DW etc.), Architectures (N-tier, SOA, Portal, Security etc.) and Emerging Technologies (Cloud, Mobile, DevOps practices, development languages (Node.js, Java, C#, Python etc.), Microservices, CI/CD).

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Strong leader, with a demonstrated record of leading consulting team or practice
- SAP Certified Technology Associate - SAP Solution Manager (Root Cause Analysis or Configuration) minimum 7.1 SP12
- Prior experience with the following - DMP, DSP, Trading Desk, Ad Server, Agency, Media/Site Analytics, Tag Management Solution (TMS), or Publisher - preferred
- Proven experience of leading the deployment of Enterprise Software (ideally ITIL related) solutions
- Strong background working with diverse groups of people to deliver complete solutions
- Proven experience as a manager and leader of people
- Experience with IaaS (conceptual and/or practical), including software-defined infrastructure (e.g., network, storage,), defining service catalogs
- Understanding of or experience with ITILv3 and ITSM

Thank you for taking your time to review my application.

Denver Johnston
