

Architect Manager Cover Letter

8980 Bob Extension South Francisco, IN 33445

Dear Rowan O'Reilly,

In response to your job posting for architect manager, I am including this letter and my resume for your review.

In the previous role, I was responsible for technical vision and strategy for building scalable, distributed data infrastructure integrated throughout human and machine-driven decisions.

Please consider my qualifications and experience:

- Nice to have – experience across the whole Adobe Marketing Cloud
- Experience leading onshore/offshore consulting teams
- Experience leading multiple full lifecycle technology implementations
- Experience selling to senior stakeholders and/or supporting business development activities
- Possess strong analytical skills, creative thinking and demonstrable experience designing and managing data solutions
- Strong working knowledge of architecture principles and strategies to ensure those principles are followed
- Experience in full life cycle development, with waterfall or agile methodology, interfacing with BA, DBA, integration/application designers/architects, testers, etc
- Familiar with data modelling and design tools, such as Erwin, Toad, Visio, Rational

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Onyx Glover
