

Architectural Intern Cover Letter

1002 Julian Square North Rosaleeberg, NY 86048-3525

Dear Corey Herzog,

I submit this application to express my sincere interest in the architectural intern position.

In my previous role, I was responsible for input on build machine learning models (including predictive models and recommender systems), mine data to detect for patterns, opportunities and insights using appropriate suite of software with a data product as the end goal.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Rising Junior majoring in Architecture
- Basic knowledge of MS Word, Excel, Access
- Strong problem solving, analysis, and verbal and written communication skills
- Familiarity with REVIT modeling
- Familiarity with AUTOCAD drafting
- Experience working in an Architectural office/work environment
- Experience with graphics/rendering software (SketchUp, Adobe, 3D Max, Maya, Rhino,) to quickly communicate ideas is preferred
- Submission of a sample page along with a resume is preferred

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Briar Stoltenberg
