Assessment Analyst Cover Letter

982 O'Conner FerryLake Gayle, IA 20539

Dear Brooklyn Paucek,

I would like to submit my application for the assessment analyst opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for system and network architecture support for information and network security technologies; provides technical support to business and technology associates in risk assessments and implementation of appropriate information security procedures, standards and technologies.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Comprehensive understanding of common penetration testing methodologies
- Strong knowledge of security industry best practices
- Backup and disaster recovery methodologies
- Patch management technologies and processes
- Wireless protocols and services
- Coordinate with technology and business groups to assess, implement, and monitor security risks
- Produce high-quality papers, presentations, recommendations, and findings for Senior Level Management and Enterprise Technology Leaders
- Proficient understanding and is able to apply commonly known security practices and possess a working knowledge of applicable industry controls such as NIST 800-53

Thank you for considering me to become a member of your team.

Sincerely,
