

Assessment Analyst Cover Letter

6190 Boyle WaysYaekoton, FL 92510

Dear Tatum Batz,

In response to your job posting for assessment analyst, I am including this letter and my resume for your review.

In my previous role, I was responsible for network & security support for troubleshooting and resolving network & security related incidents, providing assistance to peer team (engineering, security, system administrators) to identify, isolate, restore and apply long term corrective action.

Please consider my experience and qualifications for this position:

- Maintain strict confidentiality of all security issues including legal investigations, Compliance, and HR data requests
- A staff officer or NCO in a major command or higher headquarters, and achieved Joint Professional Military Education level 1 (for former officers, this includes Army CGSC/ILE, Naval War College, Air Command and Staff College, Marine Command and Staff College
- Experience engaging with senior Business stakeholders to act as engagement point for cross asset regulatory assessment
- Has proven track record in working with broad, cross cutting regulatory change drivers
- Relevant product knowledge and supporting functions in asset classes
- Be able to understand and translate complex regulatory, business requirements into practical, actionable analysis and execution proposals
- Process Reengineering, or Trade Capture experience
- Good analytical and problem solving skills for investigating security issues

Thank you for considering me to become a member of your team.

Sincerely,

Lennox Orn
