

Assessment Analyst Cover Letter

65662 Welch MeadowClevelandchester, SC 58788-1090

Dear Emerson Ebert,

I submit this application to express my sincere interest in the assessment analyst position.

Previously, I was responsible for for all security test and evaluation requirements to determine network vulnerabilities associated with final network accreditation, to include team management, fact gathering, testing, evaluation, and documentation.

Please consider my qualifications and experience:

- Previous experience with either a financial institution (retail bank, investment bank, insurance,) or a software company
- Knowledge of the following would be useful Microsoft IIS, Subversion SVN, GIT
- Working knowledge of ActiveX COM, C++, or Visual Basic 6
- Unit Testing and peer code reviews
- Experience with all-source Scientific & Technical Intelligence (S&TI) research, analysis, and production or related technical analytic support for DOD or US government agencies
- Knowledge of US Intelligence Community (IC) analytic standards
- Experience or familiarization with Army programs, weapon systems and technologies, DoD processes, Air Force, Navy or Joint Command programs
- Analysis experience should involve

Thank you for considering me to become a member of your team.

Sincerely,

Rowan Lesch
