

# Assessment Analyst Cover Letter

34530 Bernetta Manor Darrelfort, SD 24337-3375

**Dear Finley Rutherford,**

I submit this application to express my sincere interest in the assessment analyst position.

In my previous role, I was responsible for internal remediation support through the design, implementation and integration of network infrastructure and information security controls.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Familiarization with Interface Control Documents
- MATLAB, JAVA software or PYTHON scripting development
- PL/SQL queries
- Occasionally lifts 25 pounds
- Experience in BSA-AML compliance, complex data analysis and reporting, general compliance, audit, complex investigations, or legal is preferred
- Experience with reporting, project management and/or regulatory exam management is preferred
- Expert-level Excel skills including VBA, Pivot Tables, VLOOKUPS, conditional formatting, data tables and chart-building
- Demonstrated experience managing data, analyzing, and reporting on large data sets

**Thank you in advance for reviewing my candidacy for this position.**

Sincerely,

Cameron Muller
