

Asset Liability Analyst Cover Letter

939 Little RouteLake Consuela, TX 19177-3439

Dear Drew Hayes,

I am excited to be applying for the position of asset liability analyst. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for input to ALM team with respect to the impact of proposed valuation and risk measurement models and methodologies.

Please consider my qualifications and experience:

- May engage in model validation and/or produce model validation reports
- Applies innovative and scientific/quantitative analytical approaches to draw conclusions and make recommendations to answer business objectives and drive change using developed knowledge
- Produces advanced analytical material for discussions with cross-functional teams to understand complex business objectives and influence solution strategies
- Communicates analytical results, findings and solutions to governance committees and business process owners and influences business analysis
- Expertise with reconciling and analyzing large data sets, including knowledge in Fermat SQL scripting
- Working knowledge of Basel III and MAS's regulatory requirements relating to NSFR
- Possess end-to-end process and control mindset
- Good planning, organizing & coordinating skills

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Avery Marvin
