

# Asset Servicing Analyst Cover Letter

2008 Collier Alley Effertzport, WA 45464-4911

**Dear Justice Murazik,**

In response to your job posting for asset servicing analyst, I am including this letter and my resume for your review.

In my previous role, I was responsible for reporting to, and respond to requests from Senior Risk Management, as it relates to the oversight of Asset Servicing activities and implementation of the risk management framework for Asset Servicing in the region.

Please consider my experience and qualifications for this position:

- Experience with relationship management preferred
- Understanding the background of various Fund types, the role of Administrator, Custodian/Prime Broker would be an advantage
- Vigilant coordination with client instructions to facilitate Asset Servicing optimization strategy
- Engage with settlements, middle office, technology, and lending to proactively manage the risk of high profile corporate action events
- Drive various process enhancement and digital tools initiatives globally and regionally
- Manage Client Asset / Money Segregation process to ensure compliance with applicable regulations
- Strong communication skills, articulate key risk and challenge of daily processing to management
- In depth knowledge of Asset Servicing and a good team player

**Thank you for your time and consideration.**

Sincerely,

Robin Yost
