

Asset Supervisor Cover Letter

93696 Kaylee ShoreEast Manuelfurt, DE 04573-0735

Dear Azariah Beatty,

In response to your job posting for asset supervisor, I am including this letter and my resume for your review.

In my previous role, I was responsible for corporate oversight for complex and non-standard fixed asset transactions to the Fixed asset team in Bangalore.

Please consider my qualifications and experience:

- Proficient knowledge of Flashbutt welders and breakdown strategy
- Experience with programming/scripting languages (such as python, C++,) is an asset
- Prior security and distribution center experience preferred
- Above average capabilities to use Microsoft Office applications to create spreadsheets, presentations, and written documents
- Diploma in Frontline Management and qualification in Six Sigma are desirable
- A West Australian 'A' Grade Electrical license and experience with High Voltage switching and distribution would be highly desirable for this role
- A sound knowledge of AS3000 Electrical requirements and the WA Mines Regulations is preferable
- Experience in a large scale minerals processing plant is preferable

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Oakley Schuster
