

Assistant, Engineering Cover Letter

290 Bartoletti Field Lake Shakaiafort, NV 25772-8859

Dear Landry Torp,

In response to your job posting for assistant, engineering, I am including this letter and my resume for your review.

In my previous role, I was responsible for engineering and technical expertise in potable water distribution systems (water system capacity analysis, pressure boosters, etc.) and sanitary sewer collection systems (collector and sewer mains, Sanitary Pump Stations, etc.): along with familiarity in basic engineering principles in water and waste water engineering.

Please consider my experience and qualifications for this position:

- In depth Knowledge of process and machine operation and troubleshooting
- Knowledge of Six sigma, Lean, Kaizen, and TPM for continual improvement in manufacturing process and equipment
- Knowledge of Engineering change control, Validation system for new equipment and for modification and removal of existing system
- Knowledge of ISO-13485, Schedule M, cGMP and WHO FDA requirements
- Experience in PCAD preferred
- Manage lab and supports the Bench testing activities
- Provide logistical and administrative support for special lots
- Basic knowledge of EDI data formats

Thank you for taking your time to review my application.

Sincerely,

Campbell Carroll
