Dear Onyx Smitham,

In response to your job posting for associate, research, I am including this letter and my resume for your review.

In my previous role, I was responsible for service to the profession and the practice community in the field of public health including, but not limited to, involvement in professional organizations, serving as a reviewer of manuscripts for journals, and participating on professional and scientific advisory boards.

Please consider my qualifications and experience:

- Experience using HPLC and ELISA
- Effectively able to contribute on a project team
- Demonstrates flexibility and can shift gears comfortably
- Know and understand GLP
- Understand systems of sample receiving, storage, and retrieval
- Proficiency in Microsoft Office programs or similar including Excel, Power Point, and Word
- Proficiency in molecular biology laboratory techniques and in the use of laboratory equipment and materials including PCR, electrophoresis, and various enzymatic reactions
- Mammalian cell culture, small and large scale transfections

Thank you for taking your time to review my application.

Sincerely,

Story Grant
