

Associate, Research Cover Letter

56938 Kuhlman MeadowPort Caroylnburgh, KY 73689

Dear Armani Hickle,

I submit this application to express my sincere interest in the associate, research position.

In my previous role, I was responsible for key linkages and connections to individuals and organizations in the community that have an expressed interest in engagement in health research.

Please consider my qualifications and experience:

- Knowledge of crop production, farming practices, and farm equipment operation and repair
- Documented individual leadership skills including excellent organizational and record keeping skills
- Prior experience with Precision Agriculture and/or Precision Planting
- Prior GIS experience
- Understanding of Scientific Method to research
- Understanding of basic plant life cycles and agricultural plant production
- Knowledge of DNA sequencing analysis tools desirable
- Experience in emasculation, cross-pollination of agricultural crops desirable

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Skyler West
