

# Associate Web Developer Cover Letter

5115 Kutch Pass  
Bernardineborough, GA 46960

**Dear Rory Wolff,**

In response to your job posting for associate web developer, I am including this letter and my resume for your review.

Previously, I was responsible for accurate website content and calculator(s) capability in a user-friendly format that includes features such as visual aids, video clips, tutorials, and/or and/or similar features to ensure ease of information use and understanding.

My experience is an excellent fit for the list of requirements in this job:

- Tertiary education in Computer Science and Mathematics/Statistics preferred
- Curious about new technologies and design trends
- High level coding standards and solid understanding of programming languages
- Solid Experienced with Continuous Integration, Test Driven Development
- Server-side Java capacities (Spring, Multi-threading)
- Excellent communication skills to enable clear articulation while working with global team and business
- Learn common design patterns and when they should be used
- Proficient with HTML5, Javascript, CSS3, SASS and JavaScript frameworks such as AngularJS, ExtJS, JQuery etc

**Thank you in advance for reviewing my candidacy for this position.**

Sincerely,

Azariah Wiza
