

# Associate Web Developer Cover Letter

5268 Marquardt Haven Myrtleborough, AR 61166

**Dear Azariah Stracke,**

I am excited to be applying for the position of associate web developer. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for leadership in finding optimal solutions, drive Agile development, work with other Java and database developers to integrate solutions.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience in MVC frameworks and Unix shell scripting
- Knowledge of the Trade lifecycle would be beneficial
- Experience with big data/NoSQL technology such as Elastic, Solr would be beneficial
- Exploration of analytics & machine learning technologies would be beneficial
- Knowledge of Enterprise Architecture Patterns, GoF designs would be beneficial
- Hands-on experience writing JavaScript, particularly contributing to a large codebase supporting a complex website or web app
- Impeccable attention to detail, with a particular eye towards executing new functionality against an existing set of technical standards and within a design's visual grammar
- Experience working with a variety of technical and non-technical stakeholders

**I really appreciate you taking the time to review my application for the position of associate web developer.**

Sincerely,

Sutton Kunde
