Ernsermouth, CT 40863

**Dear Lennon Corkery,**

I submit this application to express my sincere interest in the associate web developer position.

Previously, I was responsible for guidance to both GE and 3rd party consultant teams throughout the systems development lifecycle including planning, execution and design architecture using agile methodologies.

My experience is an excellent fit for the list of requirements in this job:

- Design component integration architecture for large scale web applications
- Develop, test and support features for globally deployed web apps
- AngularJS, D3, ES6, Node.js and Socket.io
- Oracle (and/or other RDMS)
- Proficient understanding of how web applications work
- Knowledge of browser support
- Knowledge of user interface design and prototyping
- Good understanding of transactions

**Thank you for considering me to become a member of your team.**

Sincerely,

Justice Swift
