

# Associate Web Developer Cover Letter

9233 Sherice NeckSandraberg, TN 63763

**Dear Tatum Schuster,**

I submit this application to express my sincere interest in the associate web developer position.

Previously, I was responsible for cost and time estimates for assigned work packages to support the development of time tables and project plans.

Please consider my qualifications and experience:

- Experience in the development of highly scalable, multi-tenant cloud-based systems
- Experience with Cassandra or other NoSQL DBMS
- Client side scripting / programming in JavaScript, jQuery, and AJAX
- Web content management systems and web based collaboration portals, such as Microsoft SharePoint
- Familiarity with a server side programming language, such as ASP.NET, C#/VB.NET and SQL
- Experience working within an IDE (integrated development environment) such as MS Visual Studio, SharePoint Designer, Adobe Dreamweaver, or Eclipse
- Version / source code control software, such as Git, Subversion, or TFS
- Handle multiple simultaneous tasking, learn quickly, and produce quality results

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Phoenix Senger
