

Audio Technician Cover Letter

22942 McDermott TrackTommyville, WI 15183-6067

Dear Shae Mills,

I submit this application to express my sincere interest in the audio technician position.

Previously, I was responsible for technical and miscellaneous support to recording studios with audio equipment, computer equipment, iPads, scanner, etc.

My experience is an excellent fit for the list of requirements in this job:

- Able to quickly learn new industry, company, product, or technical knowledge and skills
- Basic knowledge of the use of VOIP troubleshooting tools such as Wireshark for analysis of SIP, RTP (Real-time Transfer Protocol) , and VOIP quality of service
- Proficiency with supervised installation, configuration, troubleshooting, and monitoring of core LAN/WAN services
- Familiarity with basic Web application architecture
- Managing large scale meetings/supporting VIP's
- Crestron experience
- Available to work early mornings or evenings when require and possibly weekend hours
- Since this role will also provide technical support, proficiency with Mac and PC is critical

I really appreciate you taking the time to review my application for the position of audio technician.

Sincerely,

Bellamy Ryan
