

Audit & Risk Management Cover Letter

2261 Preston GreenBinstown, FL 80154

Dear Sutton Corwin,

In response to your job posting for audit & risk management, I am including this letter and my resume for your review.

Previously, I was responsible for security assurance for the architecture, design, configuration and implementation of enterprise applications, infrastructure, third party cloud services, and security controls.

Please consider my experience and qualifications for this position:

- Specific subject matter expertise regarding internal audit, controls, regulatory compliance, and a solid understanding of Credit Risk and Credit Risk Management concepts, especially those associated with Consumer Credit, Counterparty Credit, or Commercial Credit where Lines of Businesses (LOBs) extend credit to corporations in various industries using diverse commercial credit products
- Effective communication skills, a proactive and 'no surprises' approach in communicating issues and strength in sustaining independent views
- An individual who has a strong background in credit administration, credit risk management, and/or credit review and is willing to transition into an internal audit role
- Successful completion of formal Bank Credit Management Training Program from top tier bank
- Proactive thinker, agile, forward looking mindset
- Consultative approach to project management
- Effectively manage relationships with management and keep abreast of internal or external developments that impact their business
- Creating a Policy Governance Framework and alignment with enterprise policy governance process

Thank you for your time and consideration.

Ryan Roberts
