

Audit Senior Manager Cover Letter

8020 Block Glensouth Devinton, NH 48785-3049

Dear River Stracke,

In response to your job posting for audit senior manager, I am including this letter and my resume for your review.

Previously, I was responsible for strategic research support in the following areas: business trends, industry trend analysis, customer research and internal research.

My experience is an excellent fit for the list of requirements in this job:

- Development of Competencies
- Custody Officer status
- Experience of working in a custodial environment
- Experience with Corporate or large Commercial credit underwriting or adjudication is an asset
- Audit or similar control environment experience is a definite asset
- Effective time management, multi-tasking and organizational skills to meet tight timelines and adapt to changing priorities
- Working knowledge of financial and business information systems, preferably large modern systems utilizing UNIX, Windows, enterprise DBMS, and emerging internet technologies
- Familiarity with technology development and infrastructure processes, derivatives (options, futures, FX), and trading environments

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Marion Stiedemann
