

# Aviation Engineer Cover Letter

493 Boyle Light Nellystad, AZ 09970

**Dear Dylan Kovacek,**

I am excited to be applying for the position of aviation engineer. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for training to maintenance vendors and airline personnel on installation and maintenance of the Viasat IFC solution. Ensure all required and preventative maintenance is performed in accordance with company, airline and FAA/EASA regulations.

Please consider my experience and qualifications for this position:

- Container technologies such as Docker or Kubernetes
- Cloud technologies such as OpenStack or Amazon Web Services (AWS)
- Utilization of open source software in client/server architectures
- Previous work or internship experience working on aviation products
- Possesses a pilot's license, fixed or rotary wing
- Experience in engineering development and testing of systems
- Familiarity with the DoN Systems Engineering Process and the DoN Systems Engineering Technical Review (SETR) policy and process
- DoD Design Processes and Documentation

**Thank you for taking your time to review my application.**

Sincerely,

Brooklyn Labadie
