

Aviation Engineer Cover Letter

99026 Terry Junction, Oregon, OR 97159

Dear Sutton Blanda,

I would like to submit my application for the aviation engineer opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for support for Federal Aviation Administration (FAA) Integrated Airman Certification and Rating Application (IACRA) application to include testing (regression and functional) and documentation that adheres to FAA security policies.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Client side web development using AngularJS, React, or MobX
- Able to demonstrate knowledge in FAA regulations and requirements pertaining to the commercial aviation industry, including CFR Part 21 and 145, orders, guidance, directives
- Previous experience directing, coordinating, and supervising a construction management field staff including multiple Assistant Resident Engineers, Office Engineers, Project Control Manager, Contracts / Procurement Manager and multiple field inspectors
- Registered Professional Engineer or Certified Construction Manager designation
- Working knowledge of PMWEB, Primavera (P6), and Welcom Cobra
- Solid understanding of Computer Aided Design (CAD) tools and software
- Identifies and resolves problems in a timely manner, applies lessons learned to preclude recurrences, and gathers and analyzes information skillfully
- Proficiency with MS Office Suite (Excel, Word, Project, Outlook, PowerPoint)

Thank you for considering me to become a member of your team.

Sincerely,
