

Aviation Mechanic Cover Letter

75354 Kessler Divide Royalmouth, AR 71996-0119

Dear Reese Runte,

I would like to submit my application for the aviation mechanic opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for technical aviation expertise in the provision of risk assessments in aviation operations to assist and support all aspects of Regional operations.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Experience with Casa and King Air preferred
- Able to lead line technicians as they perform their duties
- Hold a minimum of an A License
- Skilled in troubleshooting, repair and maintenance of aircraft structural and hydraulic systems, including
- Aircraft landing gear system, brakes and related pneumatic systems, reservoir pressurization, emergency actuating devices, pumps, valves, regulators, cylinders, lines and fittings
- Service pressure accumulators, emergency air bottles, oleo struts, reservoirs and master brake cylinders
- Remove, repair and replace aircraft fuselage, wings, fixed and movable surfaces, airfoils, regular seats, wheels and tires, controls and mechanisms
- Remove, install and rig aircraft flight control surfaces

Thank you for your time and consideration.

Sincerely,

Denver Lockman
