

AWS Architect Cover Letter

30273 Hansen RunNew Daleberg, WA 96075-5936

Dear Lennon Cronin,

I would like to submit my application for the AWS architect opening. Please accept this letter and the attached resume.

In the previous role, I was responsible for leadership in infrastructure migration methodologies and techniques including application movements into the cloud including implementation of AWS within in large regulated enterprise environments.

Please consider my experience and qualifications for this position:

- Digest story point and complete tasks effectively, while providing regular demonstrative walk-throughs of progress with Scrum Team, Directors, VPs & C-Level management
- Scripting experience (Ruby, Python, Bash)
- Experience with continuous integration and deployment automation tools such as Jenkins
- Experience with Application Development and lifecycle deployments
- Deep knowledge of AWS
- AWS Knowledge (EC2, EBS, S3, Glacier, VPC etc)
- AWS Architecture knowledge/common design patterns
- AWS Architecture Best Practices (Well-Architected Framework)

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Hayden Brown
