

AWS Architect Cover Letter

411 Mana ParksEast Adolphborough, TN 49517-9445

Dear Parker Ortiz,

I am excited to be applying for the position of AWS architect. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for in-depth domain expertise and promote AWS Cloud best practices to project technical staff and/or client management.

Please consider my experience and qualifications for this position:

- Familiarity with common enterprise services (Active Directory, DNS, File Servers, Virtual Desktops)
- Knowledge of best practices and market trends pertaining to Cloud and overall industry to provide thought leadership (seminars, whitepapers ,) and mentor team to build necessary competency
- In depth knowledge of key AWS services like EC2, S3
- Write reference architecture, best practices and thought leadership whitepapers
- AWS Certified Solution Architect (Associate or Professional)
- Performs engineering design evaluations for new environment builds
- Architect, implement and improve possible automations for cloud environments
- Implementation of industry standard security practices during implementation and maintain it throughout the lifecycle

I really appreciate you taking the time to review my application for the position of AWS architect.

Sincerely,

Max McClure
