# AWS Architect Cover Letter

467 Gino TurnpikeWest Tommie, NE 09191-8228

**Dear Shiloh Lesch,**

Please consider me for the AWS architect opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for guidance on core AWS services and work with the infrastructure teams with expertise in their respective areas to design, implement and integrate solutions in AWS.

Please consider my experience and qualifications for this position:

- Experience with AWS technologies (EC2, Lambda, DynamoDB, Dynamo3, S3, SQS, SMS API gateway
- Hands-on experience with system integration technologies such as Web Services, Enterprise Service Bus, Message Queue
- Good understanding of software design concepts
- Experience with log aggregation and data analysis
- Institute infrastructure as code, security automation and automation or routine maintenance tasks
- We would like someone to join our team who has a strong track record of implementing AWS services in a variety of distributed computing environments
- AWS Solutions Architect Associate certification would also be considered positively
- Amazon Certified Cloud Professional

**Thank you in advance for taking the time to read my cover letter and to review my resume.**

Sincerely,

Briar Shanahan
