Dear Spencer Stracke,

In response to your job posting for AWS cloud engineer, I am including this letter and my resume for your review.

In my previous role, I was responsible for expert guidance on standards for design, good practices, engineering changes, cost optimization and configuration management across AWS or Azure cloud.

My experience is an excellent fit for the list of requirements in this job:

- Consistently demonstrates follow-through in honoring commitments to customers and colleagues
- Experience with SaaS development and CI/CD tools
- Exposure to building and monitoring cloud based services
- Experience with public clouds (AWS, GCP)
- Understanding of Unix/Linux systems
- Experience building and maintaining machine learning systems
- Experience with AWS big data management system
- Experience with cloud environments such as Amazon Web Services (AWS) or Microsoft Azure

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Oakley Strosin
