

# AWS Cloud Engineer Cover Letter

4441 Faith Mission North Evelialand, MN 80482-6470

**Dear Gray Bayer,**

In response to your job posting for AWS cloud engineer, I am including this letter and my resume for your review.

In the previous role, I was responsible for expert technical leadership & stable operational support for workloads in the Cloud (specifically AWS), ensuring adherence to the overarching IT Cloud Architecture, and delivery of new designs.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Basic experience with basic networking technologies
- VMware VCP6 - Cloud
- Knowledge of Application Performance Monitoring tools or related open source tools
- Experience in development of Java Web Applications
- Expertise with configuration management tools such as Git or Atlassian Bitbucket
- Experience with continuous integration platforms such as Jenkins , AWS Code Deploy, Pipelines
- Experience or skills in Linux Sys Admin RHEL or CentOS preferred
- Experience in Agile Development methodologies & tools such as Scrum or Kanban

**I really appreciate you taking the time to review my application for the position of AWS cloud engineer.**

Sincerely,

Alexis Langworth
