

AWS Engineer Cover Letter

60359 Lizette VilleNorth Pattie, IL 39277

Dear Skyler Green,

I would like to submit my application for the AWS engineer opening. Please accept this letter and the attached resume.

In my previous role, I was responsible for oversight for AWS cloud adoption plans, cloud management and monitoring practices for AWS delivery, services and support.

Please consider my experience and qualifications for this position:

- Knowledge or understanding of security engineering, system and network security, authentication and security protocols, cryptography, and application security
- Team-centric mentality
- Excellent attention to detail and focus on quality
- Flexible approach to working, including on-call responsibilities
- Hands on working knowledge of global AWS deployments at scale
- Windows platform expertise highly desirable
- Experience with puppet or similar tools for automation of systems deployment and management
- Understanding of load balancing principles

Thank you in advance for reviewing my candidacy for this position.

Sincerely,

Morgan Rowe
