AWS Engineer Cover Letter

94268 Domenic GreenNorth Hwa, IN 97798-8348

Dear Blake O'Kon,

Please consider me for the AWS engineer opportunity. I am including my resume that lists my qualifications and experience.

In the previous role, I was responsible for optimal solutions and help improve performance of our tech stack and environment on the AWS cloud.

Please consider my qualifications and experience:

- Understanding of migration concepts in AWS preferably with experience in the IBM web (WAS+HIS) stack
- Coordinate with developers directly to help shepherd them towards those best practices
- Application deployment and data migration on AWS
- Hands on experience in Enterprise VPN and Amazon VPC integration with data center
- Expert in DevOps scripting and tools
- Hands on experience in Chef, Puppet or python
- AWS Trouble shooting
- Knowledge and experience with PowerShell

Thank you in advance for taking the time to read my cover letter and to review my resume.

Sincerely,

Brooklyn Greenholt
