

Back-End Developer Cover Letter

78777 Graham PathElijahview, TN 91290

Dear Parker Littel,

Please consider me for the back-end developer opportunity. I am including my resume that lists my qualifications and experience.

Previously, I was responsible for liaison and technical support to other disciplines: manufacturing, project, container, and closure engineering, sales & marketing, quality assurance, EH&S, and sourcing.

Please consider my qualifications and experience:

- Experience with NoSQL, Riak and Cassandra preferred
- Experience with SQL, Oracle preferred
- Experience with multiple AWS services including AWS DynamoDB, IoT, Cognito, CloudWatch Metrics, IAM (access management,) and S3
- Experience with Clearcase, SVN (Subversion), Eclipse, ANT and Maven
- Experience in Agile software development methods, Scrum preferred
- Experience programming in game engines / environments such as JS, Phaser, Lua3D, Matter.js or Unity3D, including physics features and communication of game control /status over UDP I/O
- Advanced experience in Perl is preferred
- Advanced with mapping API routes to diverse DB environment (MySQL, SQL)

Thank you for your time and consideration.

Sincerely,

Quinn Lesch
