

Backend Developer Cover Letter

3967 Harry Falls New Jerome, NH 11173

Dear Riley Krajcik,

I am excited to be applying for the position of backend developer. Please accept this letter and the attached resume as my interest in this position.

Previously, I was responsible for production support including TCP/IP, Virtual Machines, firewalls, load balancers, VPN.

My experience is an excellent fit for the list of requirements in this job:

- Hands-on experience in programming in Java EE using SQL, Hibernate, Maven, Spring
- Test automation using tools such as Junit, Mockito, Selenium
- SOAP or REST Web Services
- Web servers Tomcat, AWS, Jenkins, Sonar Qube
- Experienced with objected oriented principles, design patterns and industry's best practices
- Proficient working with relational databases NoSQL technologies like Cassandra
- Java (Guava, Guice, JGit, Lucene)
- Relational Database (Postgres)

Thank you for your time and consideration.

Sincerely,

Cameron Windler
