

Biochemist Cover Letter

78172 Grant Lake South Floramouth, RI 60301

Dear Emerson Johnson,

I am excited to be applying for the position of biochemist. Please accept this letter and the attached resume as my interest in this position.

In the previous role, I was responsible for technical support for preparation of DHF, DMR and other documents required for the technology and manufacturing transfer.

I reviewed the requirements of the job opening and I believe my candidacy is an excellent fit for this position. Some of the key requirements that I have extensive experience with include:

- Drives, executes, and implements regulatory compliance and quality improvement projects
- Drives, executes, and implements QTP initiatives in the organization
- Work with planning/purchasing, and quality to ensure production of new lots for Multiplex, ELISA, RIA products are manufactured in a timely, accurate and successful manner
- Develop, evaluate, and improve manufacturing processes focusing on Operational Excellence using Lean Six Sigma techniques
- Solid functional understanding and application of immunological assay and protein physical methods (desalting, solutions preparation and concentration determination) and protein conjugation methods
- Teach and mentor junior technologist and non-scientific personnel
- Prepare and document batch preparations using professional laboratory techniques and within the context of Master Manufacturing Procedures (MMPs) and Standard Operating Procedures (SOPs)
- Practical knowledge in protein chemistry and formulations

I really appreciate you taking the time to review my application for the position of biochemist.
